Fax-On-Demand Document # 1139

This oval shaped air bath comfortably seats two persons. With 82 air jets, the **Serenity II** releases thousands of warmed bubbles to excite the skin and massage the entire body. Designed with an extra deep and long bathing well, the Serenity II features two elevated seats for massage action to the thigh and leg areas, an acrylic grab bar and four arm rests. The Serenity II comes complete with a 1 HP variable speed air blower and a 600 watt heating system.

Select from three settings, including constant bubble action, available at variable speeds, wave and pulse modes. Once your massage is complete, an automated drying cycle is activated to purge and dry the air channels. Additional features include a slip resistant floor, a Pre-leveled ABS Support Base and air channels lined with an antimicrobial coating for added protection. The Serenity II is constructed of Lucite® Cast Acrylic and is available in over 35 designer colors.
